

CITY OF PROCTOR
FENCE ZONING WORKSHEET

Name of Applicant: _____

Address of Applicant: _____

Address of property where fence will be erected: _____

This fence will be a _____ temporary or _____ permanent fence. (check one)

Materials used for construction: _____

Height of proposed fence: _____

**The names and addresses of all adjoining property owners are included in this application.

Plat Plan: In the space below, or on an attached sheet, draw the property on which the fence will be erected. Plan should include:

- Location of all property lines and easements;
- Location of any streets and intersections;
- Location of the proposed fence.
- Distance of the setback of the fence from adjoining properties and right-of-way
- Location(s) of any gates in the fence.

Owner
Signature: _____ Date: _____

Printed Name: _____ Payment receipt # _____
(\$20.00 – Zoning Fee if exempt)

Phone: _____

Property Owner (s) to the West:

Name: _____

Address: _____

APPROVAL

The foregoing Fence Zoning application is hereby approved.

Zoning Officer/City of Proctor

Date

Subd. 8. Fences, Walls, and Hedges.

(1) Standards. All fences, walls, and other screening, which is not natural growth or foliage and which is erected within the City of Proctor, shall be subject to all the requisites of the Proctor City Code with respect to construction standards, building code fees, site plans, and the like. Fences shall be constructed so as to have the most improved side of the fence facing the public.

(2) Intersections in Residential Districts. On a corner lot in any residential district, nothing shall be erected, placed, planted, or allowed to grow in such a manner as to materially impede vision between a height of 2-1/2 feet and 10 feet above the centerline grades of the intersecting streets in the area bounded by the street lines of such corner lots and a line joining points along said street lines 50 feet from the point of the intersection.

(3) Fences, Walls, and Hedges. Notwithstanding other provisions of this chapter, fences, walls, and hedges may be permitted in any required yard or along the edge of any yard; provided that no fence, wall, or hedge along the sides or front edge of any front yard shall be over 2-1/2 feet in height; further provided that no fence, wall, or hedge shall be placed or constructed within 5 feet of an alley right-of-way.

(4) Fences in Side and Rear Yard. No fence, hedge, or wall, other than a retaining wall, along a side line of a lot in a residential district shall be higher than 6 feet unless any part above such a height has at least 50 percent of the surface uniformly open and unobstructed or unless the adjoining lot is not in a residential district.

(5) Residential Fences. Fences constructed in any of the following residential districts:

R-1-a, R-1-b, R-1-c, R-2, R-3

shall not be constructed of barbed wire. This regulation shall apply to any fence in a side yard, rear yard, or front yard. Barbed wire may be allowed in "C" or "M" districts only as set forth at 11 (a) of this subdivision.

(6) Fences Restricting Access from the Front to the Rear Yard. Those instances where a fence exists as an enclosure which restricts access from the front to the rear yard, a gate or other such means of recognizable ingress shall be provided. The location of such ingress points shall be positioned at any point paralleling the front lot line, between the side lot property line and the principal structure.

(7) Electric Fences. Fences in "S," Suburban, and "O/R," Open Space Districts, shall conform to the restrictions set forth above for residential zones; provided that electric fences shall be permitted in the "S" or "O/R" district when related to farming.

(8) Construction and Maintenance.

(a) Every fence shall be constructed in a substantial work-manlike manner and of substantial material reasonable suited for the purpose for which the fence is proposed to be used. No constructed fence may have boards, planks, or panels larger than 12 inches in width.

(b) All fences, except hedge fences, in front yards shall be constructed of chain link or wood fencing. Such materials as wire mesh, hog wire, welded wire, and straight wire will not be allowed in front yards. Fencing for the remainder of the yard may be constructed of chain link, wood, hog wire, or welded wire. No fences likely to cause harm to persons will be permitted.

(c) Every fence shall be maintained in a condition of reasonable repair and shall not be allowed to become and remain in a condition of disrepair or danger or constitute a nuisance, public or private. Any such fence which is, or has become, dangerous to the public safety, health, or welfare is a public nuisance, and the Building Official shall commence proper proceedings for the abatement thereof.

(d) Link fences, wherever permitted, shall be constructed in such a manner that no barbed ends shall be at the top.

(9) Commercial and Industrial District Fences. Fences in all commercial and Industrial districts shall not exceed 6 feet in height except that:

(a) Boundary line fences abutting other zoning districts shall conform to those conditions applying to the most restrictive district.

(b) Fences which are erected primarily to secure a particular given area may have arms not to exceed 36 inches in length located a minimum of 7 feet and a maximum of 8 feet above the ground surface. The term "arms" shall be defined as those supports extending above the main fencing upon which barbed or electric wire may be placed.

(10) Special Purpose Fences. Fences for special purposes and fences differing in construction, height, or length may be permitted in any district in the City of Proctor by issuance of a Conditional Use Permit approved by the Planning Commission and the City Council. Findings shall be made that the fence is necessary to protect, buffer, or improve the premises for which the fence is intended.

An amortization period of 60 days shall be established for the removal of all nonconforming fences stipulated in '1002.03 subd. 7.

(11) Harmful Fencing. Hazardous fences and walls such as barbed wire, electrical fences [except as allowed in (7)], fences with security arms and walls with protruding sharp edges, and other fences designed for or likely to cause harm to persons are declared hazardous and are prohibited in the City except as follows:

(a) Security fences, as defined in (9 b) with top barbs will be permitted in the City for security reasons on commercial and Industrial property, but only if a special permit is issued by the Building Official.

(b) Fencing on non-residential property required for screening exterior storage may exceed the limitations herein, but only by a special permit issued by the Planning Commission. See subd. 7 (10) above regarding Conditional Use Permits. The permit process to be used is that set forth at '1002.15 subd. 2
